Al-Atqan Trading and Contracting الأتنان للتجارة والمقاولات

1. INTRODUCTION

Al-Atqan Trading and Contracting الأتقان للتجارة والمقاولات

► OVERVIEW

Al –atqan Trading and Contracting was established in year 2020. We are a local company and our main activities are in Trading, Contracting and Transportation.

Our success is underpinned by our corporate stability, the quality and expertise of our staff, our collaborative approach to business and our skill at providing cost-effective solutions.

We are well placed to meet clients' requirements and expectations, providing professional, innovative and imaginative services within a framework of strong relationships.

The driving force behind our success has been our belief in the necessity of our personal involvement in every project we undertake. We have the ability to deliver a quality project on time, and within budget.

Al-Atqan Trading and Contracting الأتقان للتجارة والمقاولات

▶ MISSION

Our mission is to provide our customers the highest level of satisfaction throughout every building project through creativity, integrity and attention to detail. We take great pride in exceeding our customers' expectations

▶ VISION

To be a large, respectable, profitable company that delivers successful projects through the pride and commitment of its people to:

- ❖ Safety and the Environment
- ❖ Quality
- ❖ Relationships
- ❖ Equity and Fairness
- ❖ Integrity

Al-Atqan Trading and Contracting الأتنان للتجارة والمقاولات

► CORE VALUES

Our Core Values are:

SAFETY

Maintaining the safety & wellbeing of our people, the environment and the organization.

QUALITY

Creating a culture of continuous improvement, pride in our work and providing quality outcomes.

INTEGRITY

Delivering on promises, being honest and acting in line with our values.

EQUITY AND FAIRNESS

Treating everybody with respect, dignity and understanding and resolving issues on the basis of our values.

SUCCESS

Achieving the goals we set ourselves.

PROFITS

Providing sustainable profits which provide opportunities for all by:

- ❑ Increasing company value and growth
- ❑ Career development
- ❑ Wealth creation
- ❑ Ensuring continuity

2. HSSE & QUALITY POLICY

2). HSSE AND QUALITY POLICY

Health and Safety

- ▶ Our safety record is exemplary but so too is our drive for continuous improvement. Health and Safety policies work best when they are seen as a positive part of the corporate culture, rather than a restrictive set of rules that need constant supervision and enforcement.
- ▶ This is why **Al –atqan Trading and Contracting** is committed to developing the experience and capabilities of its individuals, managers and project teams to improve safety levels in the long term. Our investment in continual training of all our staff far exceeds the industry standards and we encourage a culture which allows people to initiate and implement safety on the job.
- ▶ For **Al –atqan Trading and Contracting**, health and safety management is not simply a priority; it's part of our cooperate philosophy. Technological advancements and external pressures mean **Al –atqan Trading and Contracting** practices will evolve over time.

Al-Atqan Trading and Contracting الأتقان للتجارة والمقاولات

2). HSSE AND QUALITY POLICY

Environmental Policy:

- ▶ **Al –atqan Trading and Contracting** is committed to the protection and enhancement of the environment, so environmental performance in all operations is second to none.

We aim to minimize the environmental impact of all our core activities, in particular air emissions, reduction of water use and effluent –to-water use by applying the best available technology and principles of pollution prevention.

In order to achieve these targets, **Al –atqan Trading and Contracting** are committed to complying with current industry codes and regulations associated with our environmental impact. In addition where no legislation exists we endeavor to set stringent company standards to meet our objectives to continuously improve our performance.

Efforts are made to ensure all **Al –atqan Trading and Contracting** employees and subcontractors are aware of the environmental issues at all operational sites.

2). HSSE AND QUALITY POLICY

Quality Policy

Al –atqan Trading and Contracting strive to offer a high standard of service to all clients in their chosen field of operations. The company is developing a quality management system based on the requirements of ISO 9001:2000 and shall establish standards that will be reviewed annually to ensure we continually improve our performance.

METHOD OF APPROACH:

PREFACE

At the outset, we describe hereunder our proposal Method of Approach and the ensuing procedural aspects for proper execution of the Project. In conformity with the Specific Project Objectives and the Tender requirements, we summarize the general procedure in the following sequence:

“The Project Relevant Specifications and the Client’s/Consultant’s requirements (as per the Tender Issued Documents) will be the guidelines for the Execution of the project activities.

SEQUENCE OF APPROACH

The following sequence of approach will be the guidelines for implementing the Project:

- 1) Construction Strategy
 - a) Initial review of the Tender Documents
 - b) Organizing Availability of Drawings and Documents
 - c) Detailed Program
 - d) Mobilization
 - e) Mobilization of Personnel
 - f) Mobilization of Plant and Equipment
 - g) Mobilization of Labor and Task force
 - h) Provision of Temporary Site Facilities
 - i) Selection of Subcontractors
 - j) Work Procedure

Al-Atqan Trading and Contracting الأتنان للتجارة والمقاولات

CONSTRUCTION STRATEGY

REVIEW OF THE TENDER/CONTRACT DOCUMENTS

Immediately on award of the Contract a thorough initial study of all the relevant Tender Documents and specifications is initiated, all the critical and salient features are studied in depth and the specific parameters of approach are chalked out.

AVAILABILITY OF CONSTRUCTION DRAWINGS

Required sets of construction Drawings and associated Documents are arranged and made available to the concerned Project Team selected and posted to the Project for execution.

• DETAILED PROGRAM

On award of the Contract, comprehensive program in line with the Mile Stone requirements of the Project shall be prepared and submit for approval of the Engineer in-charge. Necessary cash flow estimates and the Resources Schedule etc. shall be furnished along with the Schedule.

MOBILIZATION

➤ PROJECT PERSONNEL

The Selected Project Personnel, in line with the requirements are posted to the Site with specific delegation of duties. Strictly in line with the Tender Technical Submission, the Site Construction Management Team shall be mobilized and deployed at the Site prior to actual start of Construction activities for necessary co-ordination with the Department and the Engineer.

They will also organize and take up Temporary Site Facilities. This will also include the requirements of the Engineer's Site Facilities mentioned in the Tender Documents inclusive of the required Transportation Facilities.

Al-Atqan Trading and Contracting الأتقان للتجارة والمقاولات

▶ PLANT AND EQUIPMENT

We already have the required Plant and Equipment at our Plant Yard where our full-fledged workshop and other Storage and Camp Facilities are located.

Plant and Equipment required commencing the construction operations shall be first mobilized at our yard, given a thorough check and subsequently serviced so that they are fully operable.

Then immediately required Plant and Equipment shall be transported, moved and mobilized at the Site subsequently supplemented according to time to time requirements.

For Concreting operations, we will be using Ready Mix Concrete either from approved Ready Mix Concrete Suppliers from their Batching Plant off site. The Ready Mix Concrete shall be delivered to the site in transit mixers.

▶ MOBILIZATION OF LABOUR AND TASK FORCE

We have a full-fledged Labour Camp. The required labour according to time-to-time requirements shall be transported to and from the site.

▶ PROVISION OF TEMPORARY SITE FACILITIES

Before commencement of the Main Construction activities, the site staff shall commence and complete the Temporary site facilities including the Engineer's Site Facilities in line with the provisions of the Tender Document. Temporary Site Facilities shall include Contractors and sub Contractor's Site Offices, Car Parking, Temporary Utilities, Site Stores etc. Any temporary approach roads required shall be attended to immediately. Hoardings, Name Boards etc. according to the Provisions of the Contract shall be complied with.

1. SELECTION OF SUB CONTRACTORS

List of specialist Sub-Contractors chosen with their supporting credentials in line with the tender submission shall be presented to the Engineer in-charge for necessary approval and concurrence before commencement of works. A subcontracting plan will be developed to include coordination and QA/QC requirements, safety aspects etc.

a) SCAFFOLDING

For the supervision of erection of scaffolding, an experienced supervisor shall be engaged from the specified quality.

Detailed planning for Mobilization of manpower equipment schedule control, quality control, logistics, communication, document control, and camp operation will be prepared to achieve this objective.

2) CONSTRUCTION

The Site Construction Team deployed according to the Site Organization Chart takes care of the Execution of the Project duly supported by the head office wherever necessary.

3) ENGINEERING AND PROCUREMENT TEAM

At the outset, on award of the Contract, subsequent to the Commencement date, full Engineering and Procurement Team consisting of Procurement Engineer and his supporting staff shall be mobilized.

3.1.1) SUPPLIES AND MATERIALS SUBMISSIONS

Based on the approved List of Suppliers, samples of Materials required to start with and continue with the construction activities shall be submitted to the Engineer in-charge through prescribed Material Submittal including Test Certificates where required and his approved obtained. Purchase orders will be placed for such approved materials to be supplied in a phased program according to stages of requirements according to the given program schedule Technical Bid Tabulations shall be prepared in support of selection criteria.

3.1.2) PROCUREMENT SERVICES

To start with, procurement Plan, Schedule and Procedures shall be prepared identifying the potentially critical items requiring special attention from Execution point of view including action Plan to ensure timely delivery.

Al-Atqan Trading and Contracting الأتنان للتجارة والمقاولات

4) **QUALITY CONTROL/QUALITY ASSURANCE**

Quality control requirements shall be strictly followed and the Quality aspects closely monitored. A responsible personnel of the site shall be assigned with Quality Control functional responsibilities.

5) **INSPECTION AND TESTING**

Inspection and testing wherever applicable shall follow a definite schedule and the required high standards followed by a detailed presentation of an inspection report covering all aspects of inspection and testing and ensuing results.

6) **SAFETY REQUIREMENTS**

Project Facilities shall be according to Safety Regulations and Fire Prevention precautions. Before the commencement of the Construction activities, a detailed study shall be made to identify the principal steps involved and the sequence of work activities thereby analyzing each principal step for potential hazards and developing specific controls for each of such potential hazards.

7) **PROGRESS REPORTS**

Progress Reports, Valuation etc. shall be submitted to the Client at agreed intervals. Information on Plant and Labour at site will be made available whenever required by the client.

Progress Meetings with the Client shall be attended furnishing all the information required.

8) **DEMobilIZATION**

After completion of the Project, all the surplus and unwanted materials shall be removed from the site, temporary facilities not required to be left behind shall be removed, all the Plant and Equipment of the Contractor shall be taken back to our yard, site well cleaned and handed over within 15 days from the completion date.
